## **Schering-Plough Earns Class "A" Oliver Wight Certification with PSGI Assistance**

Walpole, MA - April 10, 2008 --

Congratulations to Schering-Plough's

Rothdram, Ireland facility for earning the

coveted Oliver Wight Class "A" Certification. This certification is awarded when a business meets the requirements of excellence based on the accumulated practice and experience of Oliver Wight Consultants around the world. No longer just an MRP implementation evaluation, the certification is a definitive, comprehensive statement of excellence in business today. The Oliver Wight certification checklist reflects the effort and achievement of thousands of client companies who have used it to differentiate their business. Their checklist is the longest-standing and most successful business assessment tool.

PSGI's Senior Business Consultant, Jeff Craft, assisted the Rothdram Planning and Control Team in preparing for this evaluation by the Oliver Wight consultants. Jeff specifically provided guidance regarding PRISM processes and functionality in the areas of demand management, planning, and finite scheduling. After earning the certification, Schering-Plough's Ann Duffy thanked Jeff for his "help with the section on capacity [and we] found your notes very useful when answering their questions and preparing for the procedure. The Oliver Wight consultants were impressed."

Jeff is a member of the PSGI team serving users of the PRISM and JDE World enterprise business applications around the globe. He has been providing consulting services for process manufacturers for the past 19 years. PSGI provides PRISM and JDE World customer support services,

professional consulting, and add-on products to extend the life and value of enterprise business applications.

PSGI President Larry Dube congratulated the Schering-Plough team adding, "I am always pleased when one of our customers is rewarded for their hard work and we've played a significant role in their achievement. It is also a telling statement of PRISM continuing ability to address today's rigorous business requirements."

**About Schering-Plough:** Schering-Plough is an innovation-driven, science-centered global health care company. Through its own biopharmaceutical research and collaborations with partners, Schering-Plough creates therapies that help save and improve lives around the world. The company applies its research-and-development platform to human prescription and consumer products as well as to animal health products. In November 2007, Schering-Plough acquired Organon BioSciences, with its Organon human health and Intervet animal health businesses, marking a pivotal step in the company's ongoing transformation. Schering-Plough's vision is to "Earn Trust, Every Day" with the doctors, patients, customers and other stakeholders served by its approximately 50,000 people around the world. The company is based in Kenilworth, N.J., and its Web site is [www.schering-plough.com](http://www.schering-plough.com).

**About Oliver Wight:** Oliver Wight are leading business improvement specialists who educate, coach and mentor people to lead and sustain change on the journey to business excellence and outstanding business performance.
