Extending the Life of Your Enterprise System

PRISM®, MAPICS®, Adage®, and Infor Demand Planning customers are gaining a competitive edge with the Graphical Performance Series® (GPS) business intelligence and analytic reporting software. The newly released **Dashboard Plus** provides strategic, graphical views of enterprise system information. Dashboard Plus users more easily identify trends, cost savings, revenue opportunities as well as problem areas. Using GPS, these customers make better, more-informed decisions and improve organizational performance.

GPS is designed for small to mid-sized companies like yours:

- Standard, supported, robust integration
- Time to value in days not weeks or months
- Direct data access — no costly data warehouse
- Minimal IT support required for low cost of ownership
- Management Dashboards, Analytic Views, Graphics, & Reports
